

Project Demo Planning

Date	2 nd July 2026
Team ID	XXXXXX
Project Name	Rising waters
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce yourself, team members, and the project title.	0.5	Kolli Divya Sree
2	Problem Statement	Explain the flood prediction problem and the need for the project.	0.5	Kolli Divya Sree
3	Solution Overview	Briefly explain the technologies used and system architecture.	0.5	Kolli Divya Sree
4	Live Project Demonstration	Show the web application, enter inputs, and display the prediction results.	0.5	Kolli Divya Sree
5	Project Features & Future Scope	Highlight the implemented features and possible future enhancements.	0.5	Kolli Divya Sree
6	Conclusion & Q&A	Summarize the project and answer any questions.	0.5	Kolli Divya Sree

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce yourself, team, project title, and explain why flood prediction is important.
2	Solution Overview	Explain the technologies used (Python, Flask, HTML, CSS, JavaScript, Scikit-learn, XGBoost) and the overall workflow.
3	Live Feature Demonstration	Run the application, enter sample values, and show the flood prediction result, probability, and safety recommendation.

4	Q&A Session	Thank the audience and answer questions related to the project.
